

### CHLORINE PLANT WILL BE INSTALLED

Board of Public Utilities Commissioners Sanctions Water Purification Measure

A chlorinating plant for the treatment of the town water supply will be installed in the Bassano water works at the earliest possible date. Sanction for the purchase of a chlorinating plant was given by the Board of Public Utilities Commissioners in a letter received Thursday, by Mayor H. O. Bredin.

The town council decided some weeks ago to install a plant of this kind, and after getting information from the Utilities Board for permission to spend money for this purpose.

The device which will be installed is a Wallace & Tiernan chlorinating plant, and will cost approximately \$1525. It will be connected with the water supply system at the pumping station, and by its use the danger of disease from water contamination will be minimized.

### Alberta University Gets Barley Sample 3,000 Years Old

The cultivation of barley in early times has been demonstrated by the finding of charred grains in the houses of pre-historic people of Europe. Some of these early barleys have been unearthed recently in a grain pit of the time of King Solomon, tenth century B. C., at Tell Fara, Palestine. Through the courtesy of the Royal Ontario Museum, the University of Alberta has received a sample of hullless barley from these times.

The shape of the grains is well preserved, but they are thoroughly charred. A point of great scientific interest is that kernels of this early form appear to be identical in structure with some of our cultivated varieties of barley.

Barley was one of the first cereals cultivated for human food. It was the chief food producing plant of the Jewish race and other people as well until it was gradually replaced by the introduction of rice and wheat.

### THE PICTURES

"The Lone Star Ranger" an all talking picture of adventure in the cow-country of the southwest, is showing Thursday, Friday and Saturday this week. It is a fascinating tale of plot and intrigue, with a beautiful love theme.

Next Wednesday, Thursday, and Friday, Nov. 12, 13, and 14, "The Great Gabbro" is coming. The story is taken from the famous opera "Pagliacci." It is a twelve reel special with four reels in technical color.

The time of change of picture has been altered from Thursday to Saturday. The picture program will now run Thursday, Thursday, and Friday, change on Saturday, and continue "Sunday and Tuesday to change again Wednesday. This change of program will start next Saturday.

### ORPHEUM THEATRE TALKING PICTURES!!

THURSDAY, FRIDAY, SATURDAY THIS WEEK  
"THE LONE STAR RANGER"

Zane Grey's First Talking Picture. A tale of when the frontier was young—of roving border towns where every man was his own law—how the Texas Rangers clash with the outlaws.

WEDNESDAY, THURSDAY, FRIDAY NEXT WEEK  
"THE GREAT GABBO"

A great picture—taken from the famous opera "Pagliacci." Twelve reel special including four reels in technical color.

SATURDAY, MONDAY, TUESDAY, NOV. 15, 17, 18  
"CHILDREN OF PLEASURE"

"ALL TALKING PICTURE—Passed Up"

Picture created youth! Thrill hunting beauty! A romance as modern as tomorrow. Tense with drama. Flaming with youth.

### Hussar News

HUSSAR, Nov. 8.—Very little damage was done to property on Halloween, although the youngsters set to the usual games. Groups of wild looking gamblers wandered from door to door, for the yearly toll of apples, candy, and nuts. Some vehicles were pulled across the streets, and other minor tricks played, but on the whole it was a very peaceful evening.

A large crowd attended the Masquerade on Friday evening, with some from Brooks, Bassano, Calgary, Standard, Acm, Katherine, Bowker, Chancellor, and the Husar district. Halloween favors and decorations added much to the pleasure of the evening. The music furnished by the Shriners' band of Calgary was very enjoyable.

Mr. and Mrs. B. Sturges left on Monday for Los Angeles.

Mr. and Mrs. H. McKinnley left on Monday for Spokane.

Mr. and Mrs. W. A. Forgy returned to Calgary on Monday.

Mr. and Mrs. R. Hulen motored to Standard on Wednesday.

Miss Nina Macdonald, of Calgary, was the guest of Mrs. LeGrande on the weekend.

Mr. and Mrs. A. A. Cliford were Calgary visitors, returning on Friday.

Ivan Montgomery motored to Calgary on Thursday.

Mr. and Mrs. F. H. Reeves and J. H. Hurd motored to Bassano on Thursday. It is made of a special manganese steel that possesses great strength and wear resisting qualities for operation in loose soil.

At present the device is made for use on McCormick-Deering tractors only, but it is expected that in the future it will be made to fit other makes of tractors also.

Mr. and Mrs. H. H. Reeves and J. H. Hurd motored to Bassano on Thursday. It is made of a special manganese steel that possesses great strength and wear resisting qualities for operation in loose soil.

### Ship in Carload Of Attachments For Farm Tractors

Local Business Men Are Selling Attachments for the Dominion of Canada

A carload of carter-type tractor attachments for wheel tractors was unloaded last Saturday by E. P. Currie and Dr. A. G. Scott, local shareholders in the Moon Truck Co. of Canada.

The shipment consisted of seven units, and a number of them have already been sold and delivered to the customers. The attachment is a carter-type device designed to be fitted to a wheel tractor.

The device was given a successful demonstration on the farm of Tom Lawson, north of Hussar, during the harvest season this fall. Its practicability and value in increasing the usefulness of the tractor were impressed upon all those who saw the demonstration.

The two local men have the controlling interest in the newly formed company, which has sole rights for the whole Dominion of Canada by reason of the demonstration of the device here. The device is popular favor among farmers, and the distributors are receiving many enquiries concerning the tractor attachment, and they expect there will be a large demand for it.

The tractor attachment is manufactured by the Moon Truck Co. of Canada. It is made of a special manganese steel that possesses great strength and wear resisting qualities for operation in loose soil. At present the device is made for use on McCormick-Deering tractors only, but it is expected that in the future it will be made to fit other makes of tractors also.

### Large Audiences See Chautauqua

Expected This Chautauqua. Will Come Again Next Year

All Chautauqua choiced their same entertainment Wednesday evening with a packed house when "The Patry" was presented by those popular Chautauqua artists, the Martin Kralin Players.

All performances were well attended, and at both afternoon and evening programs the audience showed great appreciation for frequent and hearty applause. Perhaps the most popular program was that given on Monday by the Lovell Players, who presented a splendid program of song and instrumental music. They also sang several numbers at the community church service on Wednesday afternoon. Private Peat's lecture on world peace Tuesday evening was much appreciated by the audience.

The local Chautauqua committee had a small deficit to pay, the amount short of the \$520 guarantee being 26 cents for each of the 44 guaranteees. In addition to that there was the expense of hall rent. It is probable that Chautauqua will be here again next fall. Thirty guaranteees are required. More than twenty have already signed, and it is thought the additional number will soon be obtained.

### Rosemary News

ROSEMARY, Nov. 8.—A very pretty wedding took place Sunday when Miss Mary Dixon was united in marriage to Mr. Jack Hargreaves, of Innesburg. Mr. Dix performed the ceremony.

Miss P. Krause returned Wednesday with her young daughter. Mr. and Mrs. Downs and sons Kenneth and Vove, of Bassano, spent Sunday with Mr. and Mrs. Gallup.

Mr. and Mrs. Jones and daughter, and Lorraine Stanton, motored to Calgary Tuesday.

Mr. and Mrs. Roy Eastman and family called on Mrs. C. Schmidt Sunday afternoon.

Miss Pate Robinson and W. Malcolm motored to Calgary Wednesday to attend the teachers' convention. School will resume Tuesday.

Mr. Burger, of Retlaw, was in town Wednesday evening.

### Countess

COUNTRESS, Nov. 8.—A number of Countesses attended the entertainment at Lathbury Hall on Monday night, and report a splendid time.

### SCHOOL REPORT W. K. Webb Takes Over Legal Practice

Results of tests for October

Grade I  
1 Richard Wall, 2 Henry Morrison, 3 Patsy Smith, 4 Boy Chase, 5 Norman Ingersoll, and Martha Melville, 6 Helen Berthier, 7 Gladys Melville, and Cora Kemp, 8 Stanley Morrison, 9 May Edna, 10 Chick, 11 Gordon Melvay, and Harold Lipsett, 11 John Howe, 12 Minnie Melvay, 13 Esther Berthier.

Grade II  
1 Betty Hansar, 2 Graham Cathro, 3 Betty Appleby, 4 Irene Taylor, 5 Elaine Sambrake, 6 Billy Plumer, 7 Viola Lipsett, 8 Abby Cawsey, 9 Clarke McMillan, 10 Mary Walsh, 11 Leslie Love, 12 Nora Schaffer, 13 Violet Taylor, 14 Lilla MacLean, 15 Chester Lewis, 16 Jack Howe, 17 George Taylor, 18 Helen Sammons, 19 Johnny Laidiseld, 20 Willie Schaffer, 21 Nora Zelenki.

Grade III  
1 Charles Playfair, 2 Eileen O'Keefe, 3 Bobby Pragnell, 4 Leona Lipsett, 5 Eric Plumer, 6 Bob Taylor, 7 Patsy Taylor, 8 Norman Regan, 9 Freda Shickel, 10 Robb Laidiseld, 11 Nellie Kane, 12 Tommy Plumer, 13 Edna, 14 Richard Taylor, 15 Gladys Melville, 16 John Berthier, 17 Gerald Melville, 18 Doris Berthier, 19 not ranked, 20 Esther Berthier.

Grade IV  
1 Caroline Becher, 2 Katie Berthier, 3 Violet Bacon, 4 Kathleen Smith and Jack McFarlane, 5 Shirley Holmes, 6 Jean Margaret, 7 Mary McDaniel, 8 Jimmy Henry, 9 Jack Taylor, 10 Archie MacLean, 11 Nancy Bradfoot, 12 Edna, 13 Bob Taylor, 14 Reuben Schaffer, 15 Douglas MacLean, 16 Minnie Kane, 17 Gerald Melville, 18 Doris Berthier, 19 not ranked, 20 Esther Berthier.

Grade V  
1 Rose Melville, 2 Myra Sambrake, 3 Jennie Ungar, 4 Nola Love and Patsy Regan, 5 James Melville, 6 Pamela Kane, 7 Dorothy Lewis, 8 Norma Herman, 9 Ann Zelenki, 10 Raymond Marshall, 11 Mary Kane, 12 Dorothy Lewis, 13 Goldie Smith, 14 Ronald MacLean and Oscar Ingersoll, 15 Angus Rutschke, 16 Cora Kemp, 17 George Lewis, 18 Bob Bacon, 19 not ranked, 20 Norman Biles, Agnes Meltinger, Richard Bond, Oscar Heinicke.

Grade VI  
1 Betty Plumer, 2 Dorothy Berber and Jack Gregg, 3 Loraine Parrott, 4 Jean Fraser and Robert Beck, 5 Billy Smith and Norman Wright, 6 Jack Smith, 7 Charlie Honey and Rudolph Zelenki, 8 Robert Ingersoll, 9 Thelma Love, 10 John Bacon and Rosina Melville, 11 Edward Taylor, 12 not ranked.

Grade VII  
1 Dorotha Hall, 2 Betty Franzer, 3 Helen Travis, 4 Joanne Gamble, 5 Norton Smith, 6 Gordon Smith, 7 William Wilson, 8 Vernon Thompson, 9 Betty Johnston, 10 Ephraim Shickel, 11 Benoit Johnson, 12 Harry Pragnell, 13 Lorne Cawsey, 14 Wallace Parrott, 15 Jean Johnston, 16 Martha Shickel, 17 Daniel Morrison, 18 Edwin Love, 19 Willie Marquardt, 20 Eileen Marshall, 21 Walter Parrott, 22 Douglas Ford, 23 Clifford Johnson.

Grade VIII  
1 Florence Playfair, 2 Ben Plumer, 3 Dorothy Pragnell, 4 Archie Johnston, 5 Fred Thompson, 6 Jennie Ungar, 7 Henry Holmes, 8 Lydia Zelenki, 9 Donald Maurer, 10 Kells Angell, 11 Harry Melville, 12 Pauline Cadot, 13 George Stiles, 14 Arthur Arriens, 15 Herbert Heinicke, 16 not classified, 17 Hazel Barlow and Lowell Sambrake.

Those of Countess who attended Chautauqua in Bassano were well repaid for their efforts. Miss Price and Carl Gamble are spending the week-end in Calgary.

Mrs. J. Snape enjoyed a visit with her sister last week. Orlene Borsman was back in school Monday after a week of absence on account of illness. Threshing is all finished in this district.

The Williamson & Callison camp moved to Countess last week, and is now located on the Ferguson ranch where they have erected several tents.

### SCHOOL REPORT W. K. Webb Takes Over Legal Practice

The legal practice formerly carried on by Robt. McLean, K. C., and more recently operated under the firm name of McLean & Webb, has been taken over by Walter K. Webb.

Mr. Webb is a barrister and solicitor who has had a number of years experience in Calgary. He came to Bassano about two months ago, and has been practicing his profession with Robt. McLean in the firm of McLean & Webb. Now he has taken over the entire business of the firm, and in future it will be operated under his own name.

### Council Holds Regular Session

Routine Business Transacted at Regular Monthly Meeting of Bassano Town Council

The Bassano town council met in regular monthly session last Monday evening, Nov. 3, when business of a routine nature occupied the greater part of the meeting.

A letter was read from the Provincial Department of Public Works in which it was said the department could not build the main highway from Grouse Mountain to the entire cost. According to the established principle where the highway passed through a town that summer water lines cut off construction and maintenance. The highway through Bassano, the letter said, could not be built on any other basis.

Auditor H. W. Ford reported having audited the books of the town for the quarter ending Sept. 30, and found everything correct and in good order.

Town engineer Frank Mead gave his report for the month of October. He reported 3 leaks in the water mains; one grave dug; the summer water lines cut off; weeds burned in various parts of the town, and some repairs made to town property.

The following accounts were read and passed for payment:  
A. R. Maurer \$ 2.50  
Carrie & Miller Ltd. 5.10  
Calgary Power Co. 348.40  
Telephone 17.75  
R. A. Travis 34.40  
J. R. Donaldson 10.35  
W. B. Playfair 37.35  
A. Jacobson 6.70  
Mothers Allowance 72.50  
C.P.R. D.N.R. 157.00

### CURLING NEWS

The weather has been so bright and warm that the curlers have not displayed much enthusiasm in regard to the coming season. Some of the clubs are now complete, and with the first cold snap there will be much more interest.

### Gem News

GEM, Nov. 5.—Miss Irene gave a Halloween party last Friday. A very enjoyable evening was spent by everyone who attended.

Bill George is suffering from an attack of pleurisy.

Gordon Parrott, who has been working for Mr. Strifridge, has gone to Stettin, Alberta, to take up farming for himself.

Congratulations to Mr. and Mrs. J. James on the birth of a son, to the Bassano Hospital Thursday, November 7.

Several Calgary hunters have been in the colony during the past two weeks.

Mrs. E. L. Maguire is expected home on Friday from Los Angeles, where she has spent the past two months attending her son, James, who is much better now.

Mrs. Hages, of Blindfold, Alta., was a recent visitor to Mr. and Mrs. Keeling.

Mrs. Peake is much better. She is expected home in the near future. Mrs. C. Waltemath returned from Winnipeg Thursday last. She is pleased with the doctor's report on Little Ruth, who is now taking treatment in Grouse.

Sonny Robinson is up and around again after his serious illness. Stanley Strifridge is now combining on his own place. This will be the finish of threshing and combining in Grouse for this year.

Maurice Scheibler has returned to the technical school in Calgary to complete his tractor course. Mr. McGuire, Irwin, and Mrs. Ford were Barclay curlers on Mrs. E. A. Jones, of Beynon.

Miss Irene Fox left for Wetaskiwin Wednesday last, where she will spend her Thanksgiving holidays.

### MAKEPEACE NEWS

MAKEPEACE, Nov. 5.—Geo. Nelson, Herman Jorgensen, and Henry Ford Brothers made a trip to the Rockford four mill last week to get their winter's supply of flour.

Quite a number from this vicinity attended the dance at Hussar last Friday night, all report a good time.

Mr. and Mrs. W. Weir spent Sunday with Mr. and Mrs. Nels Smith.

Mr. Gamble, of Countess, and son Darrell, and Vert Campbell, were callers at the home of Mrs. Hoffe-brook Sunday evening.

Mr. Underland Roy Smith, of Bassano, is going into the hog business, as he was in this vicinity the first of the week and bought a registered boar and sows and iron pigs.

Chris Jorgensen, son Harvey and Mr. Long made a trip to the White Ash mine Monday for coal. George Fox Jr. and Henry Schalk went to the East Coeur coal mine on Monday for coal.

Mrs. Kina Knudson spent the week-end with Mrs. Campbell.

### Main Highway Grade Is Finished As Far As Brooks

Earth Grade Completed Last Week and Is Now Ready for Gravel Next Year

The earthwork on the Bassano-Brooks link of the main provincial highway was completed last Thursday when the last stretch of the grade near Hussar was topped off and the contractors pulled in their outfits.

The road is now said to be in good shape, and good time over it can be made between here and Brooks. The grade is now ready for graveling, but it has not yet been announced when the gravel work will be done. Some time next summer is mentioned as the earliest date for graveling.

The engineering party, in charge of J. W. S. Chappelle, with M. D. Chappelle, assistant engineer, is now completing the work of inspecting and measuring the grade. The party has made Bassano their headquarters all summer, and has been occupied with the work of mapping out and measuring the grade. Their work will be completed in a few days.

### Car Rams Truck, One Man Hurt

Truck Driver Suffers Injuries When His Standing Machine Hits by Car at Night

Stanley Paprosky, truck driver for Williamson & Callison, contractors who built the Bassano-Brooks section of the main highway, was injured last Monday evening about three miles from Grouse when the truck he was driving was rammed from behind by a car.

Paprosky received cuts and bruises, and a severe injury to his leg. The accident happened at night. Paprosky had a "fat tire," and pulled over to the side of the road to make repairs. He had just finished and was in front of the truck cranking the motor when a car came up behind and rammed into the truck. The machine was pushed forward, knocking down Paprosky and running over him.

The driver of the car said he had pulled over to the side of the road to pass an approaching car going in the opposite direction, and he did not see the truck.

### Marble Pool on Palatial Liner

Above or below decks there is lots of fun on the Canadian Pacific liner. A new record-breaking Empress of Japan, largest, fastest and finest ship on the Pacific, recently arrived.

passengers said at Vancouver. One favourite meeting place is the white and green marble swimming pool, shown above with a happy group enjoying its spacious tank.

Surrounded by dressing rooms, showers, and electric baths, the swimming pool has its own cafe with rubber-cushioned chairs where sit-standers serve warming drinks with Oriental hospitality.

## Northern Indians Need Help

Federal Government To Relieve Distress

Hon. T. D. Murphy, Minister of Interior, is taking immediate steps to relieve distress among Indians who have neither money nor food to carry them through the winter. Discussing the conditions of these wards of the state, Mr. Murphy said that the Indians on the southern reserves, where agriculture is the main source of livelihood, are in fairly good position for the winter months, and it is not expected that federal assistance will be needed.

On the northern reserves, where trapping is the only occupation, the Indians, in many cases, have had a bad year and are in urgent need of succor. The problem, he intimated, was not a purely seasonal or extraordinary one. It is a matter of fact that the fur-bearing animals in these areas are rapidly disappearing as a result of operations of white trappers.

The Indians on these northern reserves are unable to obtain any furs within the limits of the reservation to make a living, and they have been accustomed to trap over contiguous territory. These non-reserve areas belong to the provinces. The federal government has no control over them.

The Indian, said Mr. Murphy, is a fur farmer, and does not exterminate wild life. But the white trapper who has gone into these areas, under provincial license, have had no regard for the preservation of wild life and have seriously depleted the numbers of fur-bearing animals. For this reason, many of the northern tribes are now in distress.

The Indian affairs branch of the interior department, under instruction from Mr. Murphy, is making a rapid survey of the situation and relief will be given at an early date.

## Restless CHILDREN

CHILDREN will fret, often for no apparent reason. But there's always a reason. It's the itching, crawling, crawling on the wrapper, mild and bland as it tastes. But its gentle action soothes a youngster more surely than a more powerful medicine.

That's the beauty of this special children's remedy! It may be given the infant—infant—as often as there is need. In cases of colic, diarrhea or similar disturbance, it is available. A coated tongue calls for just a few drops. No child of constitution, no does any suggestion of bad breath.

Wherever children don't eat well, don't rest well, or have any little upset—this pure vegetable preparation is usually all that's needed.

## FITCHER'S CASTORIA

Austrian Youth Is Rewarded For Bravery

Receives Albert Medal For Bravery

Key From Man-Eating Shark

The King has conferred the Albert Medal for gallantry in saving life on

Robert Murray Kavanagh, 22, of

Dunfermline, New South Wales.

Kavanagh was the hero of an epic

fight with a man-eating shark while

bathing at Bonds Beach. Noticing a

boy swimmer being attacked about

50 yards from shore, Kavanagh, un-

mindful of personal safety, swam to

the spot and, despite further attacks

of the man-eater, succeeded in drag-

ging the boy ashore. The lad, how-

ever, later died of his injuries.

The Albert Medal for "Gallantry

in saving life" is often recognized as

the civilian equivalent of the prized

Victoria Cross.

## Finishing Livestock For Market

Best Organization In Lethbridge Area Expert a Successful Year

With the satisfactory results of the

feeding efforts of the past, coupled

with a lower priced cattle and a good

supply of feed at reasonable prices, a

lot more cattle will be put in prime

condition for killing this year than

bridge area this year than ever be-

fore, according to estimates of the

Feed Beal beef organization, which

expects to improve upon last year's

successes.

## New Methods For Prospecting

Electrical and Magnetic Methods To Discover Concealed Mineral Deposits

During the past summer investiga-

tions were carried out with a view to

determining the merits of various

methods of geophysical prospecting

for mineral resources. The Geological

Branch of the Dominion Department

of Mines has three parties in the

field this year, while Drs. A. S. Eve

and D. A. Keys of McGill University,

Montreal, after concluding their in-

vestigations into the behaviour of

high frequency radio waves under-

ground in the Mammoth cave, Ken-

tucky, will transfer their activities to

the Sudbury nickel-copper district.

Dr. L. Gilchrist of Toronto University

will continue his research on the ser-

viceability of electrical and magnetic

deposits, and the Dominion Observa-

tory at Ottawa and the Geological

Survey are collaborating in research

in gravitational methods of studying

underground methods.

## Will Distribute Potatoes

Spuds To Be Shipped To Areas In Saskatchewan Where Crop Has Been a Failure

Acting as the holder of the twelve

are sufficient potatoes in Saskatchewan

this year to supply all the needs of the

province, the provincial government

is making arrangements to secure the

needs of the dried-out areas, where

there has been a crop failure in

this commodity, with the idea of

securing a market for those parts

of the province which have an abun-

dant supply of potatoes.

This statement was made by W.

Waldron, provincial markets commis-

sioner, who said that his department

was doing its utmost to acquaint

those who have to buy potatoes with

those who wish to sell. He told of an

instance where a Doukhobor com-

munity had seven carloads of veget-

ables, including potatoes, cabbages

and beets to sell, but did not know

where they could be marketed profit-

ably.

## Dependable Canadian Eggs

Where eggs were anything but a

dependable article of diet twelve or

fifteen years ago, today Canadian

eggs of the higher grades are looked

upon as quite safe to offer anyone

for breakfast and need not be broken

before coming to the table. The result

of grading is that production and

control has been more than doubled

during the past ten years.

## One suggestion as to how to recog-

nize poison bottles even to the de-

st is to stick a pin in the cork of any

bottle containing poison.

## Four Doses Relieved Bad Attack of Cholera

Mr. W. J. Cooper, Maunabo, Ala., writes:—"A

year ago last spring I arrived in Canada

with my family, and one of my boys, aged six, was suffering

very much with cholera. When we arrived I had a

few bottles of Dr. Fowler's Extract of Wild Strawberry

at the station about it, and he asked me if I had ever

tried Dr. Fowler's Extract of Wild Strawberry. I

had never heard of it in England, so he told me

I could get it in Winnipeg. I am pleased to say I

had only to give the child four doses and he got

well and was quite cheerful by the next morning.

## An Unexpected Answer

A class of children were being

given a lesson in cookery. The neck,

shoulder leg and loin of the mutton

had been mentioned. "Now," said the

teacher, "there is another joint no

one has mentioned. Come, Emily, I

know your father is a groom? What

does he often get on a horse?"

"Half-a-crown each way, miss?" was

the answer.

## Wild Life Valuable

Canada realizes quite a revenue

each year from its wild life. Accord-

ing to Dr. H. F. Lewis, of the De-

partment of the Interior, the wild

life has a capital valuation of one

billion dollars and a yearly business

turnover of about \$45,000,000. The

valuation includes the fur harvest,

game fish, and their influence on

sales of sports goods.

Biscuit Company Extends Plant

The National Biscuit Company

Limited is continuing its program for

the construction of reinforced concrete

additions to the Vancouver plant.

The small boy who has grown up

now to be a tired business man who

can't walk more than twenty

miles a day over the golf course.

Another form of endurance test is

the pursuit of happiness.

Few states as yet have laws stand-

ardizing the weight of bread.

Bassano Youth Is Rewarded For Bravery

Receives Albert Medal For Bravery

Key From Man-Eating Shark

The King has conferred the Albert Medal for gallantry in saving life on

Robert Murray Kavanagh, 22, of

Dunfermline, New South Wales.

Kavanagh was the hero of an epic

fight with a man-eating shark while

bathing at Bonds Beach. Noticing a

boy swimmer being attacked about

50 yards from shore, Kavanagh, un-

mindful of personal safety, swam to

the spot and, despite further attacks

of the man-eater, succeeded in drag-

ging the boy ashore. The lad, how-

ever, later died of his injuries.

The Albert Medal for "Gallantry

in saving life" is often recognized as

the civilian equivalent of the prized

Victoria Cross.

Finishing Livestock For Market

Best Organization In Lethbridge Area Expert a Successful Year

With the satisfactory results of the

feeding efforts of the past, coupled

with a lower priced cattle and a good

supply of feed at reasonable prices, a

lot more cattle will be put in prime

condition for killing this year than

bridge area this year than ever be-

fore, according to estimates of the

Feed Beal beef organization, which

expects to improve upon last year's

successes.

## Prince of Wales Makes Strong Plea For World Peace

LONDON, England.—The Prince of Wales told delegates to the Imperial Conference that in the establishment of international habits of co-operation and mutual trust lies the way to the solution of all the world's problems.

"Britain and her Dominions," he said, "have solved the problem of disarmament, among themselves and relegated war to the scrap heap. Is it too much to hope that the other three-quarters of the world, despite difference in language, ancient enmities and mistrust, may tread the same path?"

The approach of Armistice Day, he asserted, "recalls that awful period when the British Empire demonstrated to the world its own complete solidarity as the greatest power in the world has ever known, and its readiness to help in the creation of a similar brotherhood among all nations."

"There remain those who profess a disbelief in the ability of the League of Nations to prevent war, but what," he asked, "have they to offer as an alternative for the establishment of peace and the rebuilding of world prosperity?"

### B.C. Bandits Escape

Four Evade Guards But Part of Booty Was Recovered  
Vancouver, B.C.—Shooting their way through a guard established on the Fraser River bridge by two West-Canadian constables, four safe-crackers who obtained \$10,000 in stocks and bonds and \$300 cash from a store at Murrayville, escaped into Queen's Park and eluded all efforts of police posse to surround them.

The \$10,000 loot, apparently dropped by the robbers in their dash towards the woods of Queen's Park, was recovered. It was found on the grounds of the mental hospital, where the loot was hidden, and had been removed from the safe.

### May Establish Branch Factories in Canada

Several British Manufacturing Firms Are Considering the Move  
London, England.—Hon. H. Stevens, Canadian Minister of Trade and Commerce, has received information that several British industrial firms are considering the establishment of branch factories in Canada. One textile concern is reported to have decided on a site in the Quebec area.

Krupps, famous German steel firm, is also said to be examining a project to establish a branch factory in Canada to supply the ground with a view to establishment of a Canadian plant.

### Will Form Water Board

New Western Body To Regulate Lakes and Streams Of Western Provinces

Ottawa, Ont.—Confinement of the proposal to form a western provinces water board for the regulation of waters in lakes and streams of the prairie provinces and the North West Territories was made recently by Hon. Thomas G. Murphy, Minister of the Interior. "The despatch from Winnipeg is substantially correct," Mr. Murphy stated.

J. T. Johnson, director of the Dominion water power and hydro-metric service, the minister said, would be chairman of the new body.

### Date Set For Atlantic Flight

Frederichshaven, Germany. The start of the huge passenger plane DO-X on its trans-oceanic flight to the United States has been tentatively set for November 12, from Lisbon. Under this arrangement, the DO-X left for Amsterdam en route to Lisbon November 2.

### Grain Grains Affected

Edmonton, Alberta.—Fifty per cent of grain regrowth in the Edmonton division in ten days after the late October blizzard, graded tough, and seven per cent damp. It is expected that the effect of good drying weather will soon begin to show.

### Entertaining Trade Delegation

Tokyo, Japan.—The trade delegation of the Canadian Chambers of Commerce is being given an opportunity to meet Japanese officials by a series of luncheons, which are being given by Hon. H. M. Marier, Canadian minister for Japan.

W. N. U. 1862

### Recover Part Of Money Only

Winning Police Succeed In Locating Only Part Of Lost Of Bank Robbers

Winnipeg, Man.—Detectives of central police headquarters made record in the last round-up of alleged bandits in the Transcona Bank of Toronto robbery on October 1, but they have had little success, despite diligent search, in locating the majority of the \$12,000 loot.

Two persons were arrested in connection with the robbery, one is now under sentence of three years in the penitentiary; three others have been committed for trial, and charges are pending against the others. Only \$2,000 of the \$12,000 secured by the bandits has been recovered, and a "mystery man" is believed to have escaped with the missing \$9,000.

## EMPIRE RADIO STATIONS MAY BE ESTABLISHED

London, England.—At the Imperial Conference, the committee on communications, which has been considering the erection of an Empire broadcasting station, encountered both financial and technical difficulties.

The cost of the central station, which would be built in England, is estimated at 40,000 pounds, or about \$194,000 a year for the first five years. How the cost would be allocated has still to be determined.

Relaying stations would have to be constructed at a number of points to ensure proper reception. The idea would be to broadcast a regular radio program, including news bulletins, throughout the Empire. According to the skeletonized plan already submitted there would be four separate hours of broadcasting, and Canada, owing to the difference in time between the Dominion and the Old Country, would have devoted to it the early morning hours, so that the program would arrive before Canadian radio listeners had gone to bed.

The Sankey committee, headed by the Lord Chancellor, will soon have its draft report ready for the Imperial Conference. The report, dealing largely with constitutional issues, covers three main grounds; the channels for the hearing of disputes between Britain and the Dominion; the advisability of extending in practice the machinery of Dominion autonomy as recognized in the Balfour report of 1926 and the establishment of an Empire tribunal for the hearing of disputes between different units of the Empire.

The appointment of governor-general is understood to come under the review of the British Government. It is learned, however, that advice on a proposed appointment given by a Dominion Governor to the King should continue to pass through United Kingdom channels.

The constitutional committee memorandum is so intent on their work recently that they did not adjourn for

### YOUNG CANADIAN PORT

Interesting camera study of Nathaniel Benzon, young Canadian poet, who was recently married in Hart House Chapel, Toronto. His bride is former Miss Emma Wright.

London, England.—The British Government has made representations to Soviet Russia, that the Moscow Government has not been observing its pledge against propaganda exchange between the two countries on the resumption of relations.

RT Hon. Arthur Henderson, foreign secretary, divulged in the House of Commons that this representation had been made as a result of inquiry into propaganda carried on by the Third International in Great Britain and other parts of the Empire.

"I asked the ambassador to impress seriously on his government that continuation of this propaganda would be calculated to endanger relations between the two countries."

The ambassador, continued Mr. Henderson, "said that the Soviet government would continue to observe the pledge but could not control the activities of the Third International."

Load Conservative critics greeted this statement, but the matter was allowed to drop.

### Home Government Will Not Interfere

Dominions May Choose Governor-Generals For Appointment By King

London, England.—The Daily Herald says one of the most important results of the Imperial Conference would be the elimination of interference of the home government in the selection of governor-generals for the dominions.

The paper said a method of procedure had been worked out in consultation with the dominions, and that in the future a governor-general would be appointed by the King solely in consultation with the dominions and the advice of the dominion government.

### SUGGEST BONUS TO ASSIST THE WHEAT FARMER

Ottawa, Ont.—A proposal that the Dominion Government grant a bonus to western wheat farmers whose wheat crops were caught in the rain and ruined by the prairie farmers, was given serious consideration by the Department of Agriculture. It costs three cents a bushel to grow wheat and five cents a bushel to dry and dump wheat.

The proposal which the department has under consideration is said to be that the Dominion offer to pay one and a half cents a bushel on the grain which the farmer stores in his own granary. The bonus would be paid when the grain is sold. It would be paid when the grain is sold. It would be paid when the grain is sold.

Premier Bracken at a luncheon described the \$100,000 bonus figure as "somebody's guess."

### May Accompany Wilkins

Milwaukee, Wis.—Sir Hubert Wilkins has invited Lieutenant Eric B. Easton, United States explorer, to accompany him on the proposed submarine trip to the North Pole. Sir Hubert plans to start the 2,000-mile journey under the sea to the pole next June.

### SWINE CLUB COMPETITION

Winnipeg, Man.—The swine club competition, which is being held at the University of Manitoba, is drawing a large number of entries. The competition is open to all swine raisers in the province, and the prizes are very attractive.

### Refuse To Pay Taxes

Possants Of India Are Leaving Their Homes and Goods

Bombay, India.—Non-payment of taxes, one of the planks of the civil disobedience campaign platform, are being gained ground in some sections of India. All-India National Congress reports say 50,000 peasants left their homes resolved not to pay land taxes until Swami, or home rule is established. Many left their households goods, chattels, and crops behind, the government confiscating and auctioning them off.

### Rain Reparatons Talk

Berlin, Germany.—The foreign affairs committee of the Reichstag rejected all motions to raise the question of reparations for the late season. At the same time it called for an end to the situation wherein a "disarmed Germany is surrounded by ever increasing preparations for war."

### Was World's Oldest Clergyman

Magill, Ontario, Ireland.—The Rev. Hugh Butler, so far as known here, is the world's oldest clergyman in point of service. He is 94 years of age, and has been a minister of the Magillian Presbyterian Church nearly 70 years.

### Changes In B.C. Cabinet

Reorganization Completed With Swearing In Of New Officers

Victoria, B.C.—Reorganization of the cabinet of Premier S. F. Tolmie was completed with the swearing in of the re-arranged slate before the Lieutenant-Governor, Hon. R. R. Bruce.

Hon. P. B. Burnard, retired from the government and his place as Minister of Lands is taken by Hon. N. R. Loughhead, former Minister of Public Works.

Hon. R. W. Bruhn, former-president of the council, takes the portfolio of Public Works.

Hon. W. C. Shelly, former Minister of Finance, becomes President of the Council.

Hon. J. W. Jones, former speaker of the Legislature, becomes Minister of Finance.

Mr. Burden will go to London as agent-general for the province, succeeding F. A. Pauline.

### SUNDAY SCHOOL LESSON

NOVEMBER 9

THESE—THE HONEST DOUBTER

Golden Text: "Thou shalt love the Lord thy God with all thy heart, with all thy mind, with all thy strength, with all thy power; and thy neighbor as thyself." (Matthew 22:37-39)

Lesson: John 11:14-16; 14:5-8; 20:24-29, 31, 32. Devotional Reading: Proverbs 3:1-20

### Explanations and Comments

Thomas the Penitent, John 11:14-16. When Jesus told the disciples that Lazarus was dead, they took his words literally. But Jesus knew that Lazarus was not dead, but only sleeping. He said: "He is not dead, but he is sleeping." This was a test of their faith. If they believed in Jesus, they would believe that Lazarus was not dead, but only sleeping. This was a test of their faith. If they believed in Jesus, they would believe that Lazarus was not dead, but only sleeping.

Thomas the Doubter, John 20:24-29, 31, 32. Thomas was the only one of the twelve who did not see Jesus after his resurrection. He was a doubter, and he was called "Doubting Thomas." But when he saw Jesus, he was converted, and he became one of the most faithful of the apostles. This was a test of his faith. If he believed in Jesus, he would believe that Jesus was not dead, but only sleeping.

### Awarded Medal

Wireless Operator Of R-101 Is Given Recognition For Bravery

London, England.—Arthur Dudley, wireless operator of the British dirigible R-101, who survived the disaster, has been awarded the "Medal for Bravery" for his bravery in remaining on duty after the crash despite his injuries.

### For Butter Adulteration

Ottawa, Ont.—The question of more severe penalties for the adulteration of butter is under the consideration of Hon. Robert W. McLeod, Minister of Agriculture. A request for such action was recently made to Major J. H. Macdonald by the Montreal Produce Association.

### Guests Of King George

London, England.—The entire Canadian Delegation to the Imperial Conference were guests of His Majesty at a reception at the Buckingham Palace, October 29.

**WEAR A SMILE  
AND A POPPY**

Next Monday, November 10th, all  
Canada will celebrate Armistice Day  
and Thanksgiving. It is the twentieth  
anniversary of the cessation of hos-  
tility in the great war, and it is  
also the day set aside to offer thanks  
for those things which we have en-  
joyed during the past twelve months.  
Everyone is asked to wear a poppy  
on Armistice Day. The poppies are  
made by ex-soldiers who were moun-  
ted in the Titanic struggle between  
the nations of Europe. The poppy is  
the symbol of the end of that  
conflict. The poppy flower grows in  
great profusion in the fields of  
Flanders where cross and rows of  
little wooden crosses mark the  
places of Canadians who gave their  
lives for their country. It is a  
fitting symbol, and we should wear  
it in honor of those dead heroes—  
and the living who came back—and  
to commemorate the end of the  
great war.

Thanksgiving comes to us this  
year at a time when many of us are  
feeling anything but cheerful about  
our business affairs. Crops in some  
districts have been poor and market  
prices are generally at a low figure.  
Conditions are gloomy, and many of  
our business men are having  
a difficult time raising money to  
meet their financial obligations.

But we still have much to be  
thankful for. We have our health  
and strength, and we enjoy three  
months a day in parts of China the  
country is ravaged by disease, and  
hundreds of people are dying of  
starvation after living for months  
on weeds and grass. We have a  
government that will give a hearing  
to our needs—in Russia the Soviet  
machine rides rough-shod over those  
who oppose it and disregards any  
moral rights. We have a social  
system that permits the huddled  
millions to live in the position of  
premier of this Dominion in India  
the caste system raises racial bar-  
riers that cannot be broken by the  
most brilliant intellects. We are  
permitted the utmost freedom in  
religious worship in Russia the  
poor peasant is persecuted if he  
refuses to worship in the manner  
he was taught from childhood, and  
his temples are turned into granaries  
and cow stables.

And so, while our life today may  
seem poor and inadequate in com-  
parison with former days of plenty,  
we still have much to be thankful  
for.

Next Monday, then, be cheerful  
and wear a smile—a good thing to  
do any and every day and don't  
forget the poppy.

**THE TALKIES**

Let the cynic sneer and the wise  
man wrangle their heads, but the  
talkies are here, and they are here  
to stay.

People go to picture theatres to  
be entertained. They desire rest  
and amusement. They want to get  
away from the daily grind in the  
office, the monotony of  
household tasks. No matter how  
interesting our work may be, no  
matter how much we enjoy it, there  
are times when we crave a change,  
when we desire to get out of our  
own back yard and travel down  
strange and interesting paths.

That is the reason people go on  
romantic excursions in distant points;  
that is the reason country people  
make week-end trips to the city, and  
city people make week-end trips to  
the country; that is the reason  
people read novels; and that is the  
reason why people go to the moving  
picture theatres.

There they get entertainment in  
great variety. There they see strange  
places and strange people from  
distant lands, wild animals in their  
native haunts, primitive savages in  
their picturesque costumes and  
 quaint villages; there they see views  
of the great cities of the world, and  
talking pictures of men who are  
politicians, scientists, and financial  
lords in the world today. And in  
stories of romance and adventure,  
talking pictures have a much wider  
scope than those of the silent screen.  
They have all the advantages of the  
silent picture with the addition of  
the speaking voice and all the hum-  
an emotions it can express, as well  
as singing and instrument music.

Although they do not possess the  
charm of the stage play wherein the  
characters appear in person, talking  
pictures have a wider field of en-  
tertainment. They bring sights,  
scenes, and music to the small towns  
where very little entertainment of  
any kind is to be had.

They bring new song hits, news

**Simmons' Bed Special**  
A Walnut Finished Bed, 4' 6" coil spring; a full size All Felt Mattress;  
all built by Simmons.

## HEADACHES

### Ended by Kruschen

"I was a martyr to headaches, with frequent attacks of dizziness affecting my vision. My condition was a very ordinary one—a printer's reader. I gave Kruschen salts a good trial, and from then onwards I became a well another person. The headaches disappeared and the dizziness, and the most wonderful thing to me is that I have gone back to my normal state. I am less than I had discarded some years ago and not being strong enough to suffer from bad circulation during the early mornings of winter. Now at 58 I can enjoy cold baths at the year round, enjoy and am eager for my food, and am what I consider very fit—the sort of fitness that makes living a joy."—(C. F.)

Headaches can nearly always be traced to a disordered stomach or to partial constipation—a complaint many labor workers suffer from without ever suspecting it. Kruschen salts go right down to the root of the trouble and remove the cause by gently purging the system of eliminable wastes, exactly as Nature intended they should.

## WORLD HAPPENINGS

### BRIEFLY TOLD

France's newest submarine, the Promethee, a long-distance cruiser of 1,500 tons, has been launched successfully. The ship is 285 feet long. A flight from Montreal to Paris in the spring of 1931 is the hope of Rudolph Page, French aviator, who has secured a commercial pilot of Montreal.

The end of the present season will find the air operations department of the Ontario forestry branch with a new record of over 14,000 hours flown during the year.

Edmund A. Gullion, 17-year-old American youth, won 1931 International Oratorical contest held at Washington, Pa. Lucius, 17-year-old French-Canadian, won the 1931 contest of eight nations competing.

General V. I. Karpoif, one time commander of the Chinese military forces at Tientsin, under the late Marshal Chang Tso-lin, has abandoned his military career to become a monk.

W. R. Lambie, the British Government's assistant deputy trade commissioner in New Zealand, has been transferred to Canada, and will take up his duties in Winnipeg in December.

Empire delegates to the Imperial conference saw 27 different types of British aircraft in action at Croydon Airport, England. Prime Minister Ramsay MacDonald watched the performance, executed in honor of the overseas visitors.

Question of more severe penalties for the adulteration of food is under the consideration of Hon. Robert Weir, Minister of Agriculture. A request for such action was made to Major Weir by the Montreal Produce Association.

No decision has been reached to conduct an investigation into the cost of constructing the new Montreal bridge, states Sir George Perley, acting prime minister. Sir George was asked in respect to rumors that the government proposed to institute such an inquiry.

## Keeping Down Weeds

Good Work Carried On In Alberta This Year In Connection With Weed Eradication

Good work was done in Alberta this year in the keeping of soil free from weeds. It was reported at a meeting of the advisory weed board at the Parliament Buildings at Edmonton. The activities of sixteen supervisors were reviewed under the direction of E. L. Gray, field crops commissioner. Recommendations from the board will go to the Department of Agriculture as to next year's work, for which some important undertakings will be suggested.

## Largest All-Canadian Lake

Great Bear Lake in the Mackenzie district of the Northwest Territories, Canada, is generally admitted to be the largest body of the lakes wholly within Canadian territory. Its area is approximately 12,000 square miles.

First Atlantic Steam Crossing Built in Quebec in 1833 and Canadian owned, the "Royal William" was the first vessel to cross the Atlantic under steam power alone.

## Reverse Only Temporary

Britain Not Likely To Abandon Imperial Air Program

In the stunning effect upon the public consciousness, the disaster to the R-101 may be likened to that which overtook the "Titanic" before the war. That the loss of the largest, fastest and fastest trans-Atlantic liner that had been built up to that time has not prevented the British from continuing to produce great ocean-going vessels. In fact, liners now on the stocks or projected, are in size, speed and speed furnishing anything ever before contemplated. The terrible misfortune to the R-101 will doubtless delay Britain's dream of an all-embracing Empire air service, if only for the reason that so many of her air experts have been lost. But it may be taken for granted that the British will not abandon the Imperial air program of which we heard so much on the recent visit of the R-100 to this country. All down through the history, the Mother Country has displayed a genius for converting failure into success for turning temporary reverses into lasting triumphs.—Toronto Mail and Empire.

Thenth Anniversary Of Radio Broadcasting

Although Opportunities Have Been Restricted Development Has Been Rapid

The tenth anniversary of radio broadcasting, which gave the industry its greatest impetus, was celebrated a few weeks ago. The first program went on the air from a Pittsburgh station in 1920, and some weeks later this station introduced radio to politics by broadcasting returns of the Harding-Cox election. Crystal-detector sets were then the last word in reception, and it was necessary for members of the family to take turns at wearing the earphones. Restricted as were its opportunities, however, broadcasting developed so rapidly that within a few years the air was overcrowded and the Government was seeking some form of regulation.

The substitution of electrified vacuum-tube sets for those with crystal detectors, the replacement of earphones with loud speakers, together with other improvements, greatly increased the range and quality of reception. Television today is scarcely more of a novelty than broadcasting was in 1920.

These developments have created great industries.

Recipes For This Week

(By Betty Barclay)

## Waffles

- 2 cups flour
- 4 teaspoons baking powder
- 1 teaspoon salt
- 1 1/2 cups milk
- 2 eggs
- 6 tablespoons butter

Beat yolks well; add milk and sifted dry ingredients quickly. Add melted butter. Fold in stiffly beaten egg whites last. This recipe makes six large waffles.

## Henry Soup

- 5/8 cup melted butter
- 2 cups honey

Heat honey and add melted butter.

## SCALLOPED SWEET POTATOES AND APPLES

- 2 cups cold boiled sweet potatoes
- 5 cups sugar
- 1/2 cup thinly sliced sour apples
- 4 tablespoons butter

Salt.  
Put one-half the potatoes in buttered baking dish; cover with one-half the apples, sprinkle with one-half the sugar, dot with one-half the butter and sprinkle with one-half the salt. Repeat. Bake in a moderate oven one hour.

## First Compound Steam Engine

The first compound steam engine was invented in Canada by Benjamin Tibbits, who used it in the steamship "Holland" which he designed and built at St. John, N.B. This invention, by reducing the amount of fuel required, revolutionized marine transportation.

## Canada's Wooden Ships

The building of wooden ships in Canada reached its maximum development in 1865, although in 1852 Quebec alone had 25 shipyards, employing 5,000 workers.

At 20 years of age we know; at 30 we know; at 40 we are uncertain, and at 50 we give it up.

## Why Suffer From Your Liver?

Why be handicapped with ugly blotches on the face, eyes with yellow tinge and that tired and languid feeling? This indicates a torpid liver. Hebe, Disinfectant and Biliousness surely follow. You must stimulate your liver, start the bile flowing with Carter's Little Liver Pills.

They also set as a mild laxative, give you regular, free from calomel and poisonous drugs, small, easy to swallow and taste like fruit. They are not a purgative that orange or senna, which cause after-effects, but on the contrary a good tonic. All Druggists 25c and 75c red pills.

## In Christiana Convert

President Chiang Kai Shek of China Converts Christianity

Appearing unexpectedly in Shanghai, the generalissimo went to the home of his mother-in-law, Madame K. T. Soong, and was baptized into the Christian faith by sprinkling according to the rites of the Methodist Episcopal Church, South.

The ceremony was performed by a Chinese pastor, Rev. Z. T. Kuang, a graduate of the Southern Methodist Episcopal Mission University at Asheville, Tenn. Chiang explained his action in these words: "I feel the need of a God such as Jesus Christ."

The president's conversion was a great surprise to Shanghai. Only a few intimates, mostly relatives, attended the ceremonies after the chief executive came from the capital of Nanking.

Christian circles heralded the baptism with great joy and said it struck a blow at Communism. Communists have been directing attacks at foreigners recently and particularly at Christianity as being "representative of imperialism."

Pastor Kuang said he did not expect Chiang to take an active part in church affairs, as he is too busy with government duties, but "the spirit of Jesus Christ within him will go marching on."

The president's conversion is believed due to influence of Christian relatives. His wife, the former Mei-soon-woon, and Madame Chiang, her mother, have been devoted Christians for years, as have other members of the Soong family.

The late Dr. Sun Yat-sen was a Christian. Another famous general, who once exposed Christianity was Feng Yu-shan, who was known as the "Christian general" and had his entire army baptized. Later he is said to have renounced his faith under the influence of Bolshevism.

An instance of Chiang Kai Shek's pre-conversion partiality to Christianity was seen in 1925, when a dentist at the Yale in China Mission at Changsha extracted an aching tooth for the general. He was so grateful that when his armies later surged through the country he ordered the Yale building spared.

Another associate of Chiang, who is an outstanding Christian is H. H. Kung, Minister of Commerce and Labor. He is a descendant of the Confucius.

Before conversion Chiang had no formal religion.

## Will Insert Tablet

British Government To Mark Residence Of Canada's First Premier

It is the intention of the British Government to insert a tablet in the walls of Parliament, in honor of M. H. G. Commissioner, Sir William H. Clark, to commemorate the fact that this historic house was for many years the home of Canada's first prime minister, Sir John A. Macdonald. This act is in keeping with the practice of the British government in marking sites of historic interest.

## Raising Status Of Agriculture

Saskatoon Promises To Develop Chief Stock Market Of Saskatchewan

"The scientific feeding and fattening of livestock and approved methods of crop rotation, are producing a higher standard of living for the farmer in Central Saskatchewan," says "The Hub." "Favored by location, the home of the future of the highways, Saskatoon has become a leading livestock market. The Union Stockyards are handling cattle, horses, sheep and hogs on a large scale—to such an extent, in fact, that Saskatoon promises to develop as the chief stock market of the province."

Right Hon. R. B. Bennett was also approached some time ago by the view to composing the inscription which will be chiseled on the tablet, and consented to do so. He will devote his attention to it on his return from the Imperial Conference.

## Gen Will Be Priceless

A ruby said to be a wonderful gem weighing about 100 carats has been found in Mogok, upper Burma. Great secrecy is being maintained about the discovery but it is said the ruby is flawless and of excellent color. It is the case it will rank among the world's most priceless gems.

## When a Vehicle Slipped By In Old Days

It is said that some time ago a vehicle slipped by in the old days, it meant that some horse was feeling his way. But now it means that some horse was feeling his way.

The race track which, which breeds throughout the United States, no poet, but lays its spotted eggs on bare rock.

## Brilliant Triumph Scored

By Kingsford-Smith

Australian Has Proved Himself One Of World's Greatest Aviators

If the British Empire suffered any loss in aviation prestige through the recent disaster that befell Great Britain's great aviator, the "V-10," that prestige would seem to be restored by two outstanding later achievements. The first of these was the Canadian aviator, Captain Harold G. Boyd, from Newfoundland to England, and now the brilliant triumph of Kingsford-Smith.

The Australian aviator, Kingsford-Smith, completed this 10,000-mile flight in the remarkable time of nine days, 23 1/2 hours as against the 34 1/2 days it took Bert Hinkler, the previous record-holder, to make this trip in 1931. Kingsford-Smith's time is the more impressive in view of his impassioned physical condition of late. Shortly before his flight he had undergone two operations and had experienced other illnesses, and was advised by his doctor not to make the attempt.

The view is expressed that this Australian aviator's achievements are a more impressive feat than those of Col. Lindbergh, the American, whose great solo flight from New York to Paris was now being commemorated in the British Empire upon the scroll of daring and achievement in the skies.

## Didn't Want That Kind

Agent to (Agent): Then we'll consider that settled.

Agent: But—er—what about the contract?

Agent: Oh, that's all right. A verbal contract'll do.

Agent: Laddie, listen. The last time I had a verbal contract I drew a verbal salary.

## Alberta Sugar Factory

The refinery of the Canadian Sugar Factories Limited, at Raymond, Alberta, will likely be kept working up to the end of January, the crop of beets having been heavy this year in the neighborhood of 11,000 tons. Slipping cuts, began September 20th last.

"But Madam, you cannot marry again. If you do, your husband has clearly specified in his will that his fortune will go to his brother."

"Yes, I know. It's the brother that I'm marrying."

## Alberta Oil Development

An English group, Anglo-Western Oil, has entered the Southern Alberta oil development and will start by drilling two wells in the Milk River field shortly.

## Among the New Fruits

Port Arthur Man Grows Orange

Further samples of Port Arthur banana belt products have been shown by A. Swanson, who grew peach-like which attracted so much attention. Recently, Mr. Swanson displayed a new kind of melon, described as a banana melon. "It shapes it is between a banana and a cucumber and to texture and taste like a fine sample of chateaufort. The other product of his backyard garden was an orange peach. It appears much like a hybrid of the orange and peach. In taste it is more like a strawberry. Both the banana melon and the orange peach grow on vines.

## Caramel Pudding

One of the most delicious desserts one can serve, and it is one especially loved by children, can be made practically to make life. It is called Caramel Pudding. Here it is:

"Place an unopened can of Borden's Eagle Brand Condensed Milk in a kettle of boiling water and simmer for two and a half hours, being careful to keep the kettle well stirred. Remove can, cool and chill. Remove top of can, cutting along the side of can—not the top—so that the contents may be removed whole; place on a serving dish and garnish with broken nut meats and whipped cream. To serve individually, cut in slices, garnish with nut meats, and whipped cream—or use plain unwhipped cream, with or without garnish."

## Didn't Want That Kind

Agent: But—er—what about the contract?

Agent: Oh, that's all right. A verbal contract'll do.

Agent: Laddie, listen. The last time I had a verbal contract I drew a verbal salary.

## Purebred Bull Purchase Act

Alberta Farmers Are Taking Advantage Of Provisions Of New Enactment

Farmers of Alberta in considerable numbers are taking advantage of the provision of the Purebred Bull Purchase Act passed at the last session of the Legislature. An unusual feature of the act is that it is pointed out was the fact that many applicants sought Red Polled bulls, which had not been much in demand in the past. Dairy breeders bulls were also in demand. It is considered that the present movement is a good sign, indicating a return to diversified farming.

## MATHEU'S

## Haft Lip In Sub Trip

Stefansson Believes Wilkes' Voyage To Pole Will Be A Success

Vinjamur Stefansson, who has spent most of his life in the Arctic circles, is firmly convinced that Sir Hubert Wilkes' voyage to the North Pole in a submarine will be a success. Sir Hubert was second in command during Stefansson's 1913-1915 Arctic expedition.

"If I were an insurance agency," he said, "and were to write a policy on Wilkes and his party, I would insure them for less in a submarine trip than I would in a polar flight in an airplane."

The reason I believe the expedition will work out is that there are no icebergs within 400 miles of the North Pole. There are ice floes, but these floes would be impracticable, and a submarine might easily pass under them.

"Many people think the Arctic seas are infested with icebergs. This is not the case. If it were true, then such an undertaking as Wilkes suggests would be impracticable, for icebergs have a depth of a thousand feet or more."

## Farmers Aided To Meet Debts, Says Brownlee

Co-operation in Financial Interests Given in Scheme

"We are receiving very satisfactory cooperation from the various financial interests in the province in connection with giving the farmers in the province an opportunity to meet their obligations by selling the rubber-wire crop at a special discount this fall," Premier Brownlee told a newspaper man on Wednesday.

The government had met all of the groups, including automobile, finance, corporations, implement dealers, mortgage corporations, and banks, and hoped to meet the Retail Merchants' Association representatives in the very near future, the premier stated further.

Every opportunity to give the farmers a chance to meet their obligations had been given, the premier added, such action on the part of the financial groups was greatly appreciated by the provincial government.

## Russian Wheat Dumping Drive Nearing End

LONDON, Nov. 5.—There is good reason to state that abatement of Russia's ruthless wheat dumping policy is not far off. Rumors, too well supported to be ignored, are afloat that the Soviet is rapidly coming to that turn of mind in which they are glad to enter into arrangements with other great wheat exporting countries such as Canada, delimiting the field for their dumping campaign.

It is generally believed that Russia's losses in the wheat dumping campaign must have been colossal, and that she is seriously disturbed, not only by the loss of price but by the world prices should not bring her sufficient cash to meet her enormous commitments for purchase of machinery and equipment.

One thought at least will be carried back to Canada by the grain exporters and delegates attending the Imperial conference, is that Canada must concentrate all her energies in future to developing the enormous latent markets for wheat in the Orient. This point is emphasized once again today by a grain authority of the Baltic exchange quoted by the Daily Telegraph. After referring to the extremely low wheat price prevailing, he declares the world is now producing in 1 month wheat that can only be used in 20.

WANTED — HOUSEWORK; can start immediately. Miss Katie Neufeld, Countess. 18p

Canada's wild life has a capital valuation of one billion dollars and represents a yearly business turnover of \$45,000,000, Dr. H. E. Lewis of the Department of the Interior, told the delegates to the Provincial Dominion game conference at Ottawa the other day. The valuation includes the fur harvest, game and the sale of game skins, the manufacture of firearms and fishing tackle not to mention railways, tourist camps, recreation grounds and others who derive a certain revenue from this source.

Budget will be worn by all big game hunters in New Brunswick during the season opening September 15 for deer and October 1 for moose. During the recent year all non-resident anglers in New Brunswick have worn badges and the system has proved so satisfactory as to render extension of the plan to shooting advisable.

This year's crop of grapes in the Niagara fruit belt, between Hamilton and Niagara Falls, Ont., is expected to reach about 25,000,000 lbs., an increase of 15 per cent. over the 1929 crop. The crop is now being harvested.

A shipment of 128 live cattle from farms in Ontario went forward recently to England. The first in 18 months. It was received by buyers in Manchester. The shipment, though comparatively small, is regarded by the live stock trade as marking resumption of "best" export trade in cattle to the British market.
